

"'RB' Kelly's **lively, engaging presentation** on body language had my group **completely fascinated.**"

-Judy Barrett, Broker, Owner, Realtor

"'RB, I have been to many sales training courses throughout my life... Your class was without a doubt one of the **very best** and **most useful** presentations

I've ever seen."

-Sean Wingate, HBR North Shore Regional President

Rachel "RB" Kelly wasn't always the polished presenter she is now. Growing up, she struggled to connect to others, read social cues, and make friends, and her parents thought she might be slightly autistic.

In 2015, she began study at a private human behavior research lab called the Science of People, and in 2016 she was formally certified as a body language trainer.

Since then, she's given thousands of hours of instruction to clients and corporations across the globe – South Korea, Canada, Australia, New Jersey, Virginia, Texas, Hawaii, and more.

Her keynotes and consultations have been requested by law enforcement professionals, military and military-affiliated groups, graduating seniors, teachers and administrations, customer service teams, sales professionals, realtors, lawyers, women's shelters, professional women's networks to name a few.

No matter your industry, age, or profession, nonverbal training helps you to increase your charisma, refine conflict management skills, finesse your first impression, and improve the cooperation of your coworkers.

What Rachel loves most, though, is how the same communication skills that allow you to thrive at work also nourish your relationships at home with happier and healthier family life.

Rachel "RB" Kelly will captivate your audience in her first 5 seconds on stage, and then she'll change their lives.
